Summary

Third-year CSE student **with strong skills in Full Stack Web Development and AI/ML. Passionate about building scalable apps and contributing to open-source and tech-driven projects**

Education

Jaypee University of Engineering and Technology

Bachelor of Technology in Computer Science and Engineering

Guna, M.P.

July 2023 – May 2027 (Expected)

CGPA:8.1/10

Skills

Languages: C/C++, JavaScript, Python, SQL

Frontend: HTML, CSS, React.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Tools & Platforms: Git, GitHub

Core Competencies: MERN Stack Development, RESTful API Development, JWT Authentication & Authorization, Database Design, Machine Learning, Data Visualization, Model Deployment.

Soft Skills: Communication, Teamwork, Problem Solving, Leadership, Adaptability.

Experience

Apex Planet Technologies |

May 2024 – July 2024

Full Stack Web Development Intern

Remote

- Built and maintained web apps using **React.js, Node.js, Express.js**, and **MongoDB**.
- Developed a **Task Management System** with user authentication and CRUD features.
- Gained skills in **REST APIs, JWT auth, Git/GitHub**, and **responsive design**.

Elevate Labs |

April 2025 – May 2025

AI/ML Intern

Remote

- Collaborated on real-world AI/ML projects including data preprocessing, model training, and deployment.
- Applied Python, Scikit-learn, and Pandas to build and test machine learning models.
- Gained hands-on experience in end-to-end ML workflows in a remote, collaborative environment.

Projects

MERN Real-Time Chat Application | MongoDB, Express.js, React.js, Node.js, Socket.io, JWT, Git, GitHub.

- Developed a full-stack real-time chat application using the MERN stack for one-to-one messaging.
- Designed a responsive UI in React and integrated it with backend REST APIs.
- Implemented JWT-based authentication and protected routes for secure access.

AI-Powered Job Portal | React.js + Tailwind, Node.js + Express, MongoDB.

- Developed a full-stack job portal with candidate and recruiter dashboards.
- Integrated OpenAI APIs for AI-based job recommendations.
- Implemented authentication, dynamic filtering, and application tracking.

Organizations

• **T and P Cell, JUET – Coordinator**

Assisted with coordinating campus placement activities, managing student-recruiter interaction.

• **GFG Student Chapter, JUET – Vice-Chairperson**

Led chapter initiatives to organize coding contests, workshops, and foster a competitive programming environment.

• **VR/AR/MR Club, JUET – Design Lead**

Oversaw UI/UX and 3D design for immersive tech projects involving virtual and augmented reality applications.
